Do you know what helps you make your point clear?
Lists like this one:

- They’re simple
- You can organize your ideas clearly
- You’ll never forget to buy milk!

And the most important thing: the audience won’t miss the point of your presentation

NOW

Mercury is the closest planet to the Sun and the smallest one in the Solar System.

This planet's name has nothing to do with the liquid metal, since Mercury was named after the Roman messenger god.
FUTURE

Venus has a beautiful name and is the second planet from the Sun. It’s terribly hot, even hotter than Mercury, and its atmosphere is extremely poisonous.
BUDGET
